INDEPENDENT AUDITOR'S REPORT

To the Township Supervisor and the Members of the Moraine Township Board Highland Park, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Moraine Township, Illinois as of and for the year ended March 31, 2017, which collectively comprise the Township's basic financial statements as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Moraine Township, Illinois as of March 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

REQUIRED SUPPLEMENTARY INFORMATION

MANAGEMENT DISCUSSION AND ANALYSIS - UNAUDITED

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

The following section of Moraine Township's annual financial report is intended to provide readers with a narrative overview and analysis of the financial activities of the Township for the fiscal year ended March 31, 2017. The Management of the Township encourages readers to consider the information presented herein to enhance their understanding of the Township's activities and financial operations.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition to the basic financial statements, this report also contains required supplementary information.

Government-wide financial statements

The government-wide financial statements are prepared using the full accrual basis of accounting and are designed to provide readers with a broad overview of the Township's finances, in a manner similar to private-sector businesses. The statement of net position presents financial information on all of the Township's assets plus deferred outflows, liabilities plus deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the Township's net position changed during the most recent fiscal year.

Both of the government-wide financial statements (pages 15 & 16) distinguish functions of the Township that are principally supported by property taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover a portion of the costs through user fees and charges. The governmental activities of the Township include general government, services for youth and family, seniors, transportation, cemeteries and assistance for residents in need.

Fund financial statements

All of the funds of the Township are governmental funds. The fund financial statements are prepared using the modified accrual basis of accounting. Unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

OVERVIEW OF THE FINANCIAL STATEMENTS (CONCLUDED)

fiscal year. The fund financial statements report the Township's operations in more detail than the government-wide statements by providing information about the Township's two funds.

Both the governmental fund balance sheet (page 17) and the governmental fund statement of revenues, expenditures, and changes in fund balances (page 18) provide a reconciliation to facilitate this comparison between governmental funds and government-wide activities.

Notes to the financial statements

Notes to the financial statements provide additional information that is essential to a full understanding of the information provided in the basic financial statements. Required supplementary information consists of more detailed data on budget and actual revenues and expenditures.

Required Supplementary Information

In addition to the basic financial statements and the accompanying notes, this report also presents certain required supplementary information concerning Moraine Township's progress in funding its obligation to provide pension benefits to its employees. Additionally, required supplementary information regarding a statement of revenues, expenditures, and changes in fund balance, plus budget vs. actual for each major fund is presented in this section.

The Township adopts an annual budget for all funds, which is submitted to Lake County. A budgetary comparison statement has been provided for the Town Fund and General Assistance fund to demonstrate comparison with the budgeted appropriation.

FINANCIAL HIGHLIGHTS

As of the close of the current fiscal year, the Township's governmental activities reported a combined ending net position of \$3,144,284, an increase of \$58,681 in comparison with the prior fiscal year (page 16).

Of this \$3,144,284 net position:

• \$1,966,229 is the Township's investment in net fixed assets. The Township's total net fixed assets increased by \$1,667,808 with the purchase of the new building and decreased by \$30,473 due to depreciation expense.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

FINANCIAL HIGHLIGHTS (CONTINUED)

- \$276,386 includes resources restricted for general assistance and community chest.
- \$225,327 represents an increase of net position to reflect actuarially-computed Deferred Pension Outflows in accordance with Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions* and a decrease in net position in the amount of \$67,073 for Pension Liability and Deferred Pension Inflows.

At March 31, 2017, the Township's governmental funds reported combined ending fund balances of \$1,019,801 (page 18), a decrease of \$1,417,669 from the prior year. This decrease is comprised of (\$1,542,340) in the Town Fund, and an increase of \$124,671 in General Assistance and Community Chest Funds (page 18). Excluding the purchase of the new building (\$1,667,808), the Town Fund would have had an increase in fund balance of \$125,467.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Township, assets plus deferred outflows exceeded liabilities plus deferred inflows by \$3,144,284 for the year ended March 31, 2017. A portion of the Township's net position reflects its investment in capital assets; \$1,966,229. The Township uses these capital assets to provide services, and consequently these assets are not available to liquidate liabilities or for other spending. The remaining net position balance is \$1,178,055, of which \$276,386 is restricted and \$901,669 is unrestricted. The unrestricted balance includes illiquid, actuarially-computed deferred outflows of \$225,327, in accordance with Governmental Accounting Standards Board Statement No. 68. Deferred outflows, which are added to assets to arrive at total net position, are not available to liquidate liabilities or for other spending.

Moraine Township Changes in Net Position

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Governmental activities

Governmental activities increased the Township's net position by \$58,681. Key elements of the increase to net position by governmental activities are as follows:

- <u>Revenue</u> increased due to rental income, taxes and donations/contributions.
- <u>Levy reallocation</u>: The Township Board of Trustees has frozen or reduced the property tax levy every year since 2012. In addition, the portion of the levy allocated to General Assistance has increased from 8% to 23% since 2012. This reallocation is aimed at directing more resources, assistance, services and programs for residents in need.
- <u>Total expenses</u> for Governmental Activities of \$1,555,585 represents an increase of \$117,147 over the prior fiscal year.
 - Of this increase, \$119,020 is an actuarially-computed accrual required to comply with the Governmental Accounting Standards Board Statement No. 68 referenced above and \$11,112 represents depreciation. This accrual is not a current-year expenditure, but rather a set-aside for estimated future net pension outflows.
 - Fiscal year cash expenditures decreased \$12,985 during the year, and \$24,028 of rental expense was offset by \$46,582 of rental income.

Allocations among programs and departments varied:

- Township expenditures of \$207,753 funding programs, services and administration of general assistance, emergency assistance, senior and youth services to residents in need increased only slightly from the prior fiscal year.
- Community Chest expenditures of \$35,453 reflect a slight decrease from the prior fiscal year as more in-kind food donations were received from community food drives. Included in Community Chest is the continuation of a school vacation food assistance for income-qualified families of school children.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

- Expenditures for the Township's paratransit van service and taxi coupons for seniors and disabled residents totaled \$202,674, representing a 9% decrease as efficiencies in the program are implemented. This expense was partially offset by rider fees of \$11,713 and a generous \$65,000 grant from the Healthcare Foundation of Highland Park. The Foundation grant enables the Township to keep rider fees affordable for all residents, enabling residents who do not drive to age in place and continue to be contributing citizens in our community.
- Expenditures for the Office of Assessor decreased \$3,370 compared with the prior fiscal year.
- Moraine Township owns and maintains two cemeteries; fiscal year maintenance costs were \$24,021.

Moraine Township Community Chest Fund ended the fiscal year with a cash balance of \$81,420 due to a successful fund-raising event at Sunset Foods in Highland Park, and several generous and unexpected contributions from businesses and the community. Moraine Township served over 6,000 resident-visits to our Food Pantry from April 1, 2016 through March 31, 2017.

- A generous community, and almost 40 weekly volunteers, and hundreds of other volunteers, make it possible for Moraine Township to provide residents in need fresh produce, eggs, cheese, frozen meat, shelf-stable food and toiletries at the Food Pantry. In the Township's Food Pantry alone, volunteers contribute over 4,000 hours per year.
- Five area stores (Sunset Foods Highland Park, Target Highland Park, Whole Foods Market Deerfield, Fresh Thyme Deerfield and Heinen's in Bannockburn) make weekly donations of fresh produce, frozen meat, shelf-stable food and toiletries to the Food Pantry.
- Food drives by schools, religious organizations, businesses and civic organizations and other governmental units keep the Food Pantry's shelves stocked year-round.
- Coldwell Banker, Highland Park Ford Lincoln and American Legion Highland Park Post #145 partnered with the Township to provide Thanksgiving meals for Food Pantry Clients.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

TOWNSHIP PROGRAM HIGHLIGHTS APRIL 1, 2016 THROUGH MARCH 31, 2017

Moraine Township provided over 15,000 services or responses to resident inquiries during the 12-month period ended March 31, 2017, not including services provided by the Township Assessor's office.

- VITA: Moraine Township partnered with the Internal Revenue Service for the second consecutive year to offer free income tax preparation to low-and-moderate-income taxpayers, as part of the IRS Volunteer Income Tax Assistance Program (VITA). The program served 153 taxpayers during the 2017 filing season.
- Health Insurance Enrollment: Moraine Township volunteers continued assisting residents with enrollment for health insurance under the Affordable Care Act during open enrollment, and through the year for Medicaid-eligible residents and people who lost insurance during the year.
- Utility Assistance: Moraine Township assisted over 250 income-qualified residents obtain utility assistance through Share the Warmth and LIHEAP (Low Income Heat Electric Assistance) Programs, in addition to direct summer electric assistance to income-qualified senior households.
- Cemeteries: Moraine Township owns and maintains two cemeteries. Township cemetery services include burials, deed transfers, and responses to other inquiries.
- Housing: Township assisted 76 residents with housing issues and information.
- Social Service Assistance: Miscellaneous other social services include assisting residents with renewal of Benefit Access programs, Illinois Department of Human Service program assistance, and Social Security and Health Department issues.
- Volunteers: In addition to hundreds of regular and casual Food Pantry volunteers, other Township volunteers helped residents enroll in health insurance and prepare income tax returns. These services account for more than 2,000 estimated volunteer hours during the fiscal year, including 40+ hours of annual training per volunteer to be certified to provide assistance.

2017 REVENUES ROUNDED TO THE NEAREST PERCENT

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the Township's net resources available for spending at the end of the fiscal year.

At March 31, 2017, the Township's governmental funds reported combined ending fund balances of \$1,019,802, a decrease of \$1,417,668 in comparison with the prior year due to the purchase of the new building.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS (CONTINUED)

The Town Fund is the chief operating fund of the Township. At March 31, 2017, the fund balance of the Town Fund was \$743,415. This represents a decrease of \$1,542,340, compared to the prior fiscal year, again primarily related to the purchase of the new building for \$1,667,808.

TOWN FUND BUDGETARY HIGHLIGHTS

Expenditures in the Town Fund of \$2,788,728, were greater than revenues by \$1,542,340, however the Town Fund expenditures were \$236,152 under the amended appropriation of \$3,024,880.

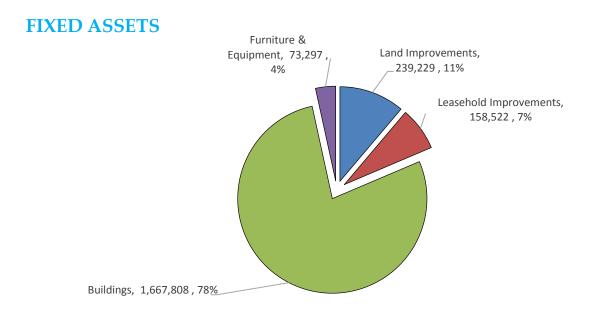

CAPITAL ASSETS

The Township's capital fixed assets for its governmental activities as of March 31, 2017, amount to \$1,966,229 (net of accumulated depreciation). This investment in fixed assets includes land improvements, leasehold improvements, buildings, furniture and other equipment.

Major fixed asset events during the current fiscal year included the purchase of a building which will serve as the Township office and Food Pantry, replacing the facility currently rented for \$81,000 per year. Half of the new building is currently rented to a not-for-profit organization through August 2017, at which time the Township will buildout the space to fit its needs and move. Purchase of the building will reduce future operating expenses. The following is a summary of current year fixed asset additions and balances.

	I	Balance						Balance

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) Year Ended March 31, 2017

ECONOMIC FACTORS AND PROPERTY TAXES

The equalized assessed valuation (EAV) of the Township for the 2016 levy is \$2,365,697,184. That represents an increase in EAV of \$144,459,497 over the prior year's EAV. Property tax revenues recorded in these financial statements are from the 2015 levy paid to the Township in 2016 and reflected in the financial statements for the Fiscal Year Ended March 31, 2017. Property tax receivable and deferred property tax amounts reported in these financial statements are from the 2016 levy, to be paid to the Township in 2017.

Moraine Township froze its 2015 property tax levies and reduced the 2014 and 2016 levies by 5%. The Township's tax rate has declined in each year of the summary below. A summary of the assessed valuations and extensions for tax years 2016, 2015, and 2014 is as follows: (Note that 2015 was a quadrennial reassessment year).

NOTES TO THE BASIC FINANCIAL STATEMENTS

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Moraine Township, Illinois (Township) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant accounting policies:

In June 1999, GASB issued Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain significant changes in the Statement include the following:

- A Management's Discussion and Analysis (MD&A) section providing an analysis of the Township's overall financial position and results of operations.
- A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

REPORTING ENTITY –

The Township is located in Highland Park, Illinois and is governed by a board of trustees. The Township is primarily funded through a tax levy, Illinois Replacement Tax, operating grants, user fees, and charitable donations. Revenue is used to operate and staff Township services. The accompanying general purpose financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. Based on the significance of any operational or financial relationships with the Township, the Community Chest is a blended component unit and included in these financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION –

The Township's basic financial statements include both government-wide (reporting the Township as a whole) and fund financial statements (reporting the Township's major funds).

The government-wide financial statements (i.e., the statement of net position and the statement of activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Statement of Net Position includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Township's net position is reported in three parts – net investment in capital assets, restricted net position, and unrestricted net position.

The Statement of Activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes (1) charges to Township patrons who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meet the operational or capital requirements of a particular function or segment. Taxes and other items are not properly included among program revenues, and are reported instead as general revenue.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenue to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgements are recorded only when payment is due. Moraine Township does not currently have long-term debt outstanding.

Primary sources of revenue are property taxes, state-shared revenue, and interest associated with the current fiscal period. All are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Township.

Program revenues include van rider fees that are reported as charges for services in the government-wide financial statements. Transportation grants are reported as operating grants in the government-wide financial statements.

The following fund types are used by the Township:

Governmental Funds

General Fund – The Town Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The General Assistance Fund is a Special Revenue Fund.

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNICIANT ACCOUNTING POLICIES (CONTINUED)

THE TOWNSHIP REPORTS ALL THE FUNDS AS MAJOR GOVERNMENTAL FUNDS – The Town Fund and the General Assistance Fund are both considered major funds by the Township.

FINANCIAL STATEMENT AMOUNTS –

Bank Deposits and Investments - The Township has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. The Township maintains a cash and investment pool which is available for use by the Town and General Assistance Funds.

The Township's investment policies are governed by state statutes. All funds are deposited in federally insured banks and savings and loans. The cash and investments reflected in the combined balance sheet consist of demand accounts.

Receivables and Payables - In general, outstanding balances between funds are reported as "Interfund receivables" and "Interfund payables." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds."

All trade and property taxes receivable are shown net of an allowance for uncollectible amounts. Property taxes are levied on December 1st based on the taxable valuation of the property as of the preceding December 31st. The 2016 levy was passed by the Board on November 10, 2016.

Capital Assets - Capital assets are defined by the Township as assets with an initial cost of more than \$2,500 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Building and improvements	10-50 years
Equipment, furniture, and fixtures	5-20 years

Compensated Absences - (Vacation Leave) - It is the Township's policy to permit employees to accumulate up to five days of earned but unused vacation pay benefits with permission from their supervisor. There is no liability for unpaid accumulated vacation leave in the current year.

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNICIANT ACCOUNTING POLICIES (CONTINUED)

A liability for these amounts is reported in the governmental fund - General Fund only for employee terminations as of year end.

Long-term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. In the fund financial statements, debt issued is reported as another financing source and payments are reported as debt service expenditures.

The Township has a pension plan covering salaried employees and employees working in excess of 1,000 hours annually. Employees are covered by the Illinois Municipal Retirement Fund.

The budget represents departmental appropriations as authorized by the Township's appropriation ordinance and includes revisions authorized by the Township Board to reflect changes in departmental programs. At March 31, 2017, unexpended appropriations of the budgetary funds (general fund and special revenue funds) automatically lapse. The budget is prepared on the modified accrual basis. The 2016-2017 appropriations ordinance was adopted May 12, 2016. An amended appropriation ordinance was adopted on September 22, 2016, primarily to appropriate funds for the purchase, maintenance and improvements for the Town Hall and Food Pantry.

FUND BALANCE CLASSIFICATION -

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Township is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable –

This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The Township has classified prepaid items as being Nonspendable.

Restricted –

This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNICIANT ACCOUNTING POLICIES (CONTINUED)

Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants. Infrastructure Projects are restricted by State Statute and County laws and are legally segregated for funding of infrastructure improvements.

Committed –

This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Township Board. These amounts cannot be used for any other purpose unless the Township Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Township did not have any committed resources as of March 31, 2017.

Assigned –

This classification includes amounts that are constrained by the Township's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Township Board or through the Township Board delegating this responsibility to the Township Supervisor through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the Town Fund.

Unassigned –

This classification includes the residual fund balance for the Town Fund and the amount established for minimum funding which represents the portion of the Town Fund balance that has been established by the board to be used for debt service or in emergency situations.

The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The Township would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

EQUITY CLASSIFICATIONS USED IN THE GOVERNMENT-WIDE FINANCIAL STATEMENTS

Net Investment in Capital Assets – consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

Notes to Financial Statements Year ended March 31, 2017

NOTE 1 – SUMMARY OF SIGNICIANT ACCOUNTING POLICIES (CONCLUDED)

Restricted Net Position - This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – all other net position is reported in this category.

IMPLEMENTATION OF GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) PRONOUNCEMENTS

GASB Statement No. 68 – In June 2012, the GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27. The requirements of this Statement will improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports and will enhance its value for assessing accountability and interperiod equity by requiring recognition of the entire net pension liability and a more comprehensive measure of pension expense. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2014, therefore, the Township implemented this Statement in fiscal year ending March 31, 2016.

NOTE – 2 CASH AND INVESTMENTS

The Township's investment policies are governed by state statutes whereby Township money must be deposited in FDIC insured banks located within the state. Permissible investments include demand accounts and certificates of deposits. The carrying cash balance of the Township is \$1,062,619 and the bank balance is \$1,071,458. Of the bank balance in the Township's name, \$521,564 is FDIC insured, \$549,701 is collateralized and the remaining \$193 is uncollateralized for the Township in the bank's trust department.

Interest Rate Risk – The Township limits its interest rate risk by having demand deposits.

- Custodial Credit Risk The Township limits its credit risk by holding its deposits in FDIC insured institutions with collateral backing its deposits. Of the Township's cash and deposits on March 31, 2017, \$193 is uninsured and uncollateralized.
- Concentration of Credit Risk The Township places no limit on the amount held in any one institution.

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT

IMRF PLAN DESCRIPTION

The Township's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Township's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

BENEFITS PROVIDED

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT (CONTINUED)

EMPLOYEES COVERED BY BENEFIT TERMS

As of December 31, 2016, the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	15
Inactive Plan Members entitled to but not yet receiving benefits	7
Active Plan Members	9
Total	31

CONTRIBUTIONS

As set by statute, the Township's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Township's annual contribution rate for calendar year 2016 was 7.99%. For the fiscal year ended March 31, 2017, the Township contributed \$39,429 to the plan. The Township also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

NET PENSION LIABILITY

The Township's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

ACTUARIAL ASSUMPTIONS

The following are the methods and assumptions used to determine total pension liability at December 31, 2016:

- The Actuarial Cost Method used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.75%.
- Salary Increases were expected to be 3.75% to 14.50%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT (CONTINUED)

- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2014 valuation according to an experience study from years 2011 to 2013.
- The IMRF-specific rates for **Mortality** (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Portfolio	Expected
	Target	Real Rate
Asset Class	Percentage	<u>of Return</u>
Domestic Equity	38%	7.39%
International Equity	17%	7.59%
Fixed Income	27%	3.00%
Real Estate	8%	6.00%
Alternative Investments	9%	2.75-8.15%
Cash Equivalents	<u>1%</u>	2.25%
Total	100%

(1) Does not necessarily represent Covered EmployeePayroll as defined in GASB Statement Nos. 67-68. (2) "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality. In descbribing this index, the Bond Buyer notes that the bonds' average credit quality is roughly equivalent to Moody's Investors Services's Aa2 rating and Standard & Poor's Corp.'s AA. The rate shown is as of December 29, 2016, the most recent available on or before the measurement date.

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT (CONTINUED)

SINGLE DISCOUNT RATE

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.78%, and the resulting single discount rate is 7.50%.

SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.50%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended March 31, 2017, the Township recognized pension expense of \$39,429. At March 31, 2017, the Township reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

Deferred Amounts Related to Pensions	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
Deferred Amounts to be Recognized in Pension		
Expense in Future Periods		
Differences between expected and actual	\$ 89,175	\$ -
Changes of assumptions	905	2,218
Net difference between projected and actual earnings on pension plan investments	144,907	
Total Deferred Amounts to be recognized in		
pension expense in future periods	234,987	2,218
Pension Contributions made subsequent		
To the measurement date	9,660	
Total Deferred Amounts Related to Pensions	<u>\$ 225,327</u>	<u>\$ 2,218</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending	Net Deferred				
December 31	Outflows of Resources				
2017	\$ 133,038				
2018	49,604				
2019	47,391				
2020	2,736				
2021	-				
Thereafter					
Total	<u>\$ 232,769</u>				

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT (CONTINUED)

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2016 Contribution Rate*

Valuation Date: December 31, 2016 Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported. Methods and Assumptions Used to Determine 2016 Contribution Rates: Actuarial Cost Method Aggregate Entry Age Normal Amortization Method Level Percentage of Payroll, Closed Non-Taxing bodies: 10-year rolling period. Remaining Amortization Period Taxing bodies (Regular, SLEP and ECO groups): 27-year closed period until remaining period reaches 15 years (then 15-year rolling period). Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 22 years for most employers (two employers were financed over 31 years). Asset Valuation Method 5-Year smoothed market; 20% corridor Wage growth 3.50% Price Inflation 2.75% -- approximate; No explicit price inflation assumption is used in this valuation. Salary Increases 3.75% to 14.50% including inflation Investment Rate of Return 7.50% Retirement Age Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011 - 2013. **Mortality** For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (based on 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to **Other Information:** Notes There were no benefit changes during the year

* Based on Valuation Assumptions used in the December 31, 2013 actuarial valuation

Notes to Financial Statements Year ended March 31, 2017

NOTE 3 – ILLINOIS MUNICIPAL RETIREMENT (CONCLUDED)

Summary of Actuarial Methods and Assumptions Used in the Calculation of the Total Pension Liability

Methods and Assumptions	Used to Determine Total pension Liability:
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value of Assets
Price Inflation	2.75%
Salary Increases	3.75% to 14.50%
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of
	eligibility condition. Last updated for the 2014 valuation
	pursuant to an experience study of the period 2011-2013
Mortality	For non-disabled retirees, an IMRF specific mortality table was
	used with fully generational projection scale MP-2014 (base year
	2014). The IMRF specific rates were developed from the RP-2014
	Blue Collar Health Annuitant Mortality Table with adjustments to
	match current IMRF experience. For disabled retirees, an IMRF
	specific mortality table was used with fully generational
	projection scale MP-2014 (based on 2014). The IMRF specific rates
	were developed from the RP-2014 Disabled Retirees Mortality
	Table applying the same adjustment that were applied for non-
	disabled lives. For active members, an IMRF specific mortality
	table was used with fully generational projection scale MP-2014
	(base year 2014). The IMRF specific rates were developed from
	the RP-2014 Employee Mortality Table with adjustments to match
	current IMRF experience.
Other Information:	
Notes	There were no benefit changes during the year.

A detailed description of the actuarial assumptions and methods can be found in the December 31, 2016 Illinois Municipal Retirement annual actuarial valuation report.

Notes to Financial Statements Year ended March 31, 2017

NOTE 4 – CHANGES IN FIXED ASSETS

	I	Balance						Balance

Depreciation by Governm Unallocated Total Governmental Activ		-	\$ \$	30,473 30,473				

NOTE 5 – RISK MANAGEMENT

Significant losses are covered by commercial insurance for all major programs. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE 6 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

The Township has adopted GASB Statement No. 65, which redefined how certain financial statement elements are presented in the statement of financial position. The elements are classified as follows:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The Township has \$225,327 of deferred pension outflows in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred

Notes to Financial Statements Year ended March 31, 2017

NOTE 6 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES (CONTINUED)

inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Township has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. Deferred inflows of resources (\$1,312,027) reported in the governmental funds for unavailable revenues are all from property taxes to be received in the following year and (\$2,218) of deferred pension inflows.

NOTE 7 – LEASE OBLIGATIONS

In January 2009, the Township entered into an operating lease agreement with Green Bay Central Joint Venture for the office at 777 Central Avenue. The terms of the lease were for payments of \$6,360 per month for the first 12 months, increasing to \$6,750 for the final 12 months. There is an option to renew the lease for another 5 years with monthly rent starting at \$6,850 and increasing to \$7,250 for the final 12 months. Total cost of the lease was \$80,895 for the year ended March 31, 2017. The future minimum lease payments for this lease are as follows:

Minimum future lease payments are:

	 Total
4/1/17 thru 12/31/17	\$ 60,750

NOTE 8 – BLENDED COMPONENT UNIT

The Community Chest Fund is a 501(c)3 legally separate entity that is encompassed within the General Assistance Fund of the Township due to the relationship that it has with the Township.

NOTE 9 – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are issued or available to be issued. There are two types of subsequent events: recognized (events that relate to conditions present at the balance sheet date) and non-recognized (events or conditions that did not exist at the balance sheet date but arose after that date). There have been no other recognized or non-recognized subsequent events that have occurred between March 31, 2017 and the date of this audit report requiring disclosure in the financial statements.

Notes to Financial Statements Year ended March 31, 2017

NOTE 10 – CONTINGENCIES

The Township is aware of pending litigation for a 2015 tax objection and has created an allowance within the property tax receivable reported, in the amount of \$13,000, to account for this settlement.

NOTES TO REQUIRED

SUPPLEMENTARY INFORMATION

Notes to Required Supplementary Information Year ended March 31, 2017

NOTE 1 - BUDGETARY INFORMATION

The accounting policies of Moraine Township include the preparation of financial statements on the modified accrual basis of accounting. The Township also prepares its budget on the modified accrual basis of accounting.

Under the modified accrual basis of accounting, revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. General capital assets acquisitions are reported as expenditures in the governmental funds. Proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures relating to compensated absences, debt service expenditures, and claims and judgments are recognized only when payment is due.

Budgets are adopted at the function level in the General Fund and total General Fund expenditures disbursed may not legally exceed the budgeted amount. Appropriations lapse at year end unless specifically carried over. There were no carryovers to the following year.

The Township procedures in establishing the budgetary data reflected in the General Fund Financial Statements are presented below:

- 1. Prior to June 15th the Township Board receives a proposed operating budget (appropriation ordinance) for the fiscal year commencing on proceeding April 1st. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted at a public meeting to obtain taxpayers comments.
- 3. The budget is legally enacted through passage of an ordinance prior to June 30th.
- 4. The Township Treasurer, in conjunction with the Township Board, is authorized to expend the unexpensed balance of any item or items of any general appropriation in making up any deficiency in any item or items of the same general appropriation.
- 5. The original budget was passed on May 12, 2016 and amended on September 22, 2016.

Notes to Required Supplementary Information Year ended March 31, 2017

NOTE 1 - BUDGETARY INFORMATION (CONCLUDED)

- 6. Formal budgetary integration is not employed as a management control device during the year for any fund.
- 7. Budgetary comparisons presented in the accompanying financial statements are prepared on the modified cash basis of accounting, which is comprehensive basis of accounting other than generally accepted accounting principles. All funds utilize the same basis of accounting for both budgetary purposes and actual results.
- 8. Expenditures cannot legally exceed appropriations at the fund level.
- 9. All appropriations lapse at year-end.
- 10. The budget for Town Fund and General Assistance Fund were adopted on May 12, 2016 and amended on September 22, 2016.

NOTE 2 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS

No funds had expenditures exceeding the appropriations.
